SUMMARY

FULL-STACK DEVELOPER WITH EXPERIENCE IN BUILDING SCALABLE, USER-CENTRIC WEB APPLICATIONS. SKILLED IN MODERN FRAMEWORKS, AND RESPONSIVE UI DEVELOPMENT.

SKILLS

LANGUAGES

- JavaScript • TypeScript

FRONTEND

- React.js • Next.js • Vue.js • Storybook
- Redux

BACKEND

- Node.js • Express.js • REST API

DATABASE

- MongoDB

OTHER

- Design Systems • Tailwind CSS • GitHub

EDUCATION

MADAN MOHAN MALAVIYA UNIVERSITY OF TECHNOLOGY

B.TECH IN COMPUTER SCIENCE
July 2024 | Gorakhpur, India

PARAMESHWARI DEVI DHANUKA SARASWATI VIDYA MANDIR

INTERMEDIATE
2020 | Mathura, India

PARAMESHWARI DEVI DHANUKA SARASWATI VIDYA MANDIR

HIGH SCHOOL
2018 | Mathura, India

ACHIEVEMENTS

CODING PROFILE

- Solved **150+** problems across platforms including Leet Code, CodeChef and CodeForces etc.

EXPERIENCE

FIBONACCI INNOVATIONS | ASSOCIATE SOFTWARE ENGINEER

July 2023 - Dec 2024 | On-Site

- Developed responsive and accessible web interfaces, leveraging modern frameworks like React and Vue to create dynamic user experiences.
- Improved security and usability by integrating passkey authentication, role-based access controls, and seamless UI workflows.
- Designed and implemented dynamic, reusable UI components, including interactive charts and features supporting microservice-based architectures.
- Built a scalable design system with dark-light theme integration, ensuring a consistent and polished user experience across platforms.
- Engineered front-end solutions for sub-products from scratch, integrating APIs and responsive layouts for seamless functionality.
- Integrated secure and intuitive payment workflows, enhancing the user experience with smooth payment processing.

PROJECTS

PORTFOLIO-FE | Code

- Tech Stack: **Nx Workspace, React Js**
- Developed a scalable portfolio website leveraging Nx workspace for modular management of React microservices.
- Implemented Webpack Module Federation for dynamic micro-frontend architecture and efficient lazy loading.
- Delivered a responsive, visually consistent UI using React and Tailwind CSS.

POSTS | Code

- Tech Stack: **React Js, Redux, Node Js, Express Js**
- Built a full-stack application using React, Redux, and TypeScript for the front-end, and Node.js with Express and MongoDB for the back-end.
- Developed reusable, scalable components and implemented state management with Redux, enhancing maintainability.
- Created RESTful APIs with role-based authentication and middleware for secure access and file handling.

BUGG-UI | Code | Live

- Tech Stack: **React Js, Storybook**
- Built a reusable React-based UI library with Tailwind CSS for styling and Storybook for component documentation.
- Optimized for performance and scalability, ensuring seamless integration with various projects and microservices.
- Hosted the library on Netlify, streamlining frontend development and improving UI consistency across applications.
